JUBAYID
HOSSAIN SHUVO

Full-Stack Developer

Hello! I'm, a full-stack developer. I've many years of experience in this sector. I love working on the look and feel of websites using HTML, CSS, Bootstrap, JavaScript, jQuery and Wordpress. For the behind-the-scenes stuff, I know my way around PHP and SQL.

I enjoy solving problems and make sure that the websites I work on are not only good-looking but also user-friendly. I'm always eager to learn new things and stay updated on the latest tech trends.
